Welcome to the SIMMCENTER and ABSOILS International Event
Seminar and Workshop 11.– 12.9.2014

**Seminar on the utilization of secondary materials
from surplus material stocks, waste, and by-products of
infrastructure and construction in Finland, Sweden and Estonia**
Workshop to prepare future EU collaboration projects

PLACE: Helsinki, Jätkäsaari Infocentre, Tyynenmerenkatu 1, Helsinki, Finland
Language: English

Objectives of the event:

- Presenting the results of the Absoils project, information on the implementation of the pilot applications: conversion of surplus and low-quality soils into construction materials
 - Possibilities for new applications
 - Binders in stabilisation process
 - Technology and equipment
 - Environmental issues
 - Legislation
- Presenting experiences concerning the use of secondary materials in construction from Sweden and Estonia
- Fostering international networking
- Giving a possibility to create an application for EU funding (workshop on the 2nd day)
